DUAL FUNCTIONALITY

SOWDEN lamps have been designed and developed with a *DUAL FUNCTIONALITY*: they can be used both as fixed lighting, if connected to a power supply with the USB cable, and as a portable lamp, thanks to the lithium-ion batteries supplied.

When used as **fixed lighting**, for example on a bedside table, between books on a shelf or on an office desk, the *DUAL FUNCTIONALITY* allows direct connection to a power supply with a USB cable.

When used as a **portable lamp**, SOWDEN provides rechargeable 18650 2600mAh lithium-ion batteries that make the lamps convenient even in places where electrical connections are not easily available. By unplugging the USB, the lamp will automatically switch to the batteries provided with the product.

LONG LIFE TO THE THINGS YOU LOVE

SOWDEN Led Disc 01

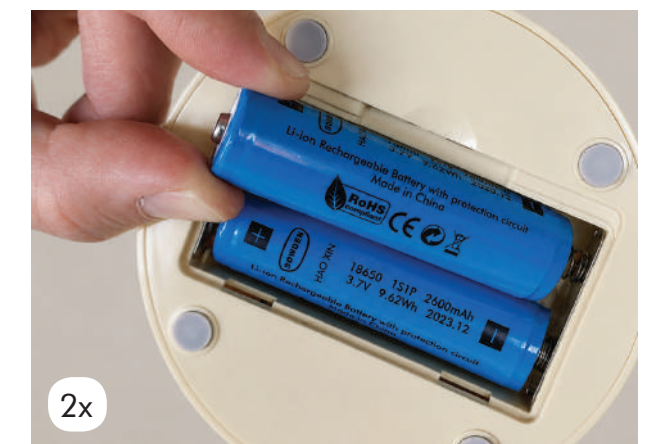

SOWDEN Led Disc 02

The light source and the batteries are easy to install and can be replaced at any time if necessary.

The lamps use a replaceable SOWDEN light source and are equipped with the SOWDEN 18650 2600mAh rechargeable lithium-ion batteries.

RECHARGEABLE BATTERIES SOWDEN

LAMP PL1

DUAL FUNCTIONALITY

Use connected to USB power for continuous lighting.
Disconnect the cable and the lamp automatically switches to battery mode.

Rechargeable, portable and repairable.

REPLACEABLE BATTERIES

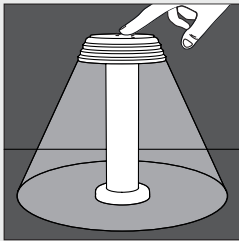

The lamp is supplied with a SOWDEN Li-ion battery 18650, 2600mAh.
When the lamp is OFF, recharging the battery with the USB takes about 4 hours.

REPLACEABLE LED LIGHT SOURCE

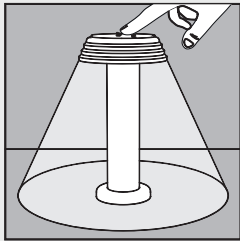

The lamp is supplied with the SOWDEN Led Disc 01.
Light source LED 3.5W.
Maximum brightness: 300 lumens.

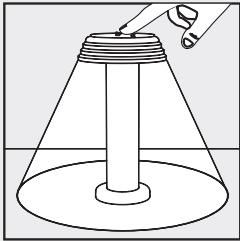

3 BRIGHTNESS LEVELS

OTHER INFORMATION

When connected to the USB, a **red light** indicates that the battery is charging.
When the battery is fully charged, the red light will turn **OFF**.
Flat batteries can be easily swapped with ones that have **been fully** charged in a **battery charger**, a useful feature in restaurants.
Suitable for indoor and outdoor dry environments.

REPAIRABLE DESIGN Replaceable batteries and LED light source, extending the lifespan of the product.

LAMP PL2

DUAL FUNCTIONALITY

Use connected to USB power for continuous lighting.
Disconnect the cable and the lamp automatically switches to battery mode.

Rechargeable, portable and repairable.

REPLACEABLE BATTERIES

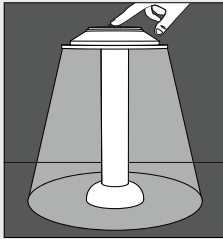

The lamp is supplied with 2 SOWDEN Li-ion batteries 18650, 2600mAh.
When the lamp is OFF, recharging the batteries with the USB takes about 4 hours.

REPLACEABLE LED LIGHT SOURCE

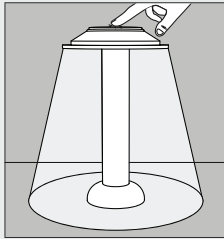

The lamp is supplied with the SOWDEN Led Disc 01.
Light source LED 3.5W.
Maximum brightness: 300 lumens.

Suitable for indoor and outdoor dry environments.

CEILING LAMPS

The Ceiling Lamps are created using the Sowden silicone shades which are assembled together by our custom designed red Holder Piece which fits to any standard E27 light bulb holder.

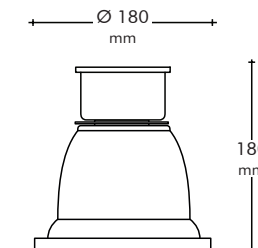

LIGHTBULB IS NOT SUPPLIED.

The lightbulb used should be LED technology, maximum 15W.

The market offers lightbulbs with different Kelvin (light temperature) and Lumen (brightness) values, choose a lightbulb corresponding to lighting requirements.

The market also offers 'smart' bulbs which have the dimming function and other interesting lighting features controlled from an app.

CEILING LAMP CL1

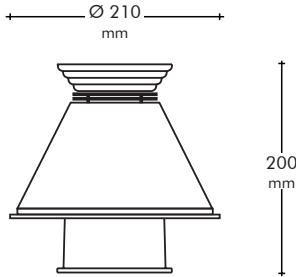

MATERIAL: ABS, silicone
The silicone shades can be disassembled for easy cleaning

Lampshade sold individually.
Ceiling rose plus cable sold separately.

Compatible with all sockets with an E27/E26 base

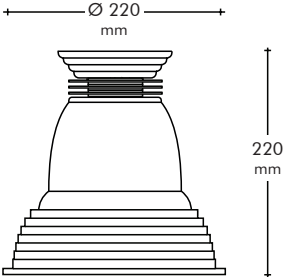

Bulb (not included)

CEILING LAMP CL2

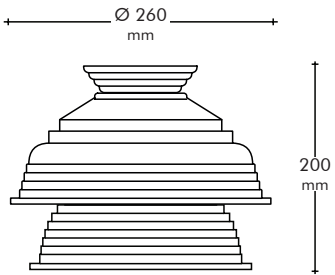

MATERIAL: ABS, silicone The silicone shades can be disassembled for easy cleaning
Lampshade sold individually. Ceiling rose plus cable sold separately.
Compatible with all sockets with an E27/E26 base
<u>Bulb (not included)</u>

CEILING LAMP CL3

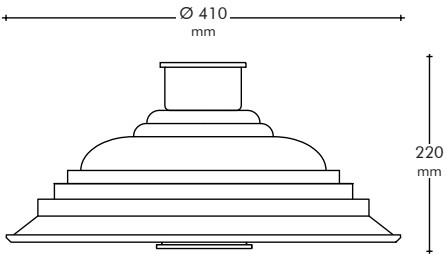

MATERIAL: ABS, silicone The silicone shades can be disassembled for easy cleaning
Lampshade sold individually. Ceiling rose plus cable sold separately.
Compatible with all sockets with an E27/E26 base
<u>Bulb (not included)</u>

CEILING LAMP CL4

MATERIAL: ABS, silicone The silicone shades can be disassembled for easy cleaning
Lampshade sold individually. Ceiling rose plus cable sold separately.
Compatible with all sockets with an E27/E26 base
<u>Bulb (not included)</u>

CEILING LAMP CL5

MATERIAL: ABS, silicone The silicone shades can be disassembled for easy cleaning
Lampshade sold individually. Ceiling rose plus cable sold separately.
Compatible with all sockets with an E27/E26 base
<u>Bulb (not included)</u>

TABLE LAMPS

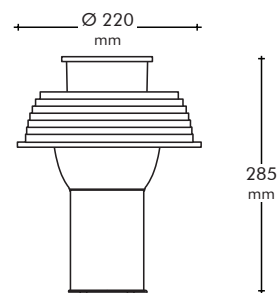

The Table Lamps are created using the SOWDEN silicone shades supported by a custom designed lampstand.

LIGHTBULB IS NOT SUPPLIED.

The lightbulb used should be LED technology, maximum 15W.

The market offers lightbulbs with different Kelvin (light temperature) and Lumen (brightness) values, choose a lightbulb corresponding to lighting requirements. The market also offers 'smart' bulbs which have the dimming function and other interesting lighting features controlled from an app.

TABLE LAMP TL2

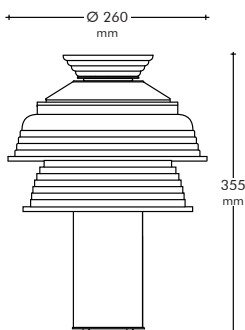

MATERIAL: Painted aluminium and ABS body, silicone shade
The silicone shades can easily be removed for cleaning.

INPUT:
220-240V 50-60Hz / America and Canada: 110V

LAMP BULB TYPE: E27 LED lightbulb max 15W (not included)
Cable switch, Supplied with EU plug

TABLE LAMP TL4

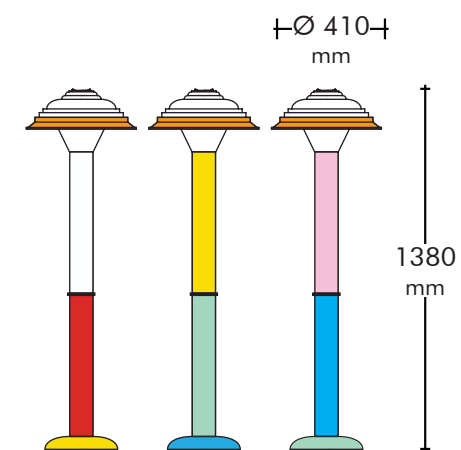

MATERIAL: Painted aluminium and ABS body, silicone shade
The silicone shades can easily be removed for cleaning.

INPUT:
220-240V 50-60Hz / America and Canada: 110V

LAMP BULB TYPE: E27 LED lightbulb max 15W (not included)
Cable switch, Supplied with EU plug

FLOOR LAMP

FLOOR LAMP^{FL4}

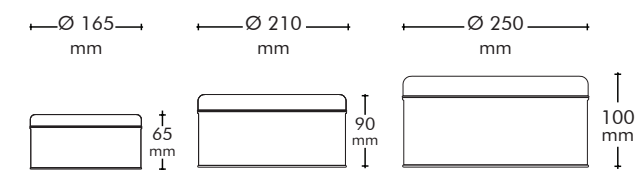

MATERIAL: Painted aluminium and ABS body,
silicone shade
The silicone shades can easily be removed for cleaning.

INPUT:
220-240V 50-60Hz / America and Canada: 110V

LAMP BULB TYPE: E27 LED lightbulb max 15W (not
included)
Cable switch, Supplied with EU plug

LIFESTYLE

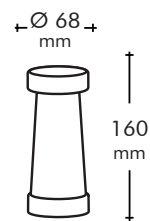

TIN BOX SET

MATERIAL: Tinplate

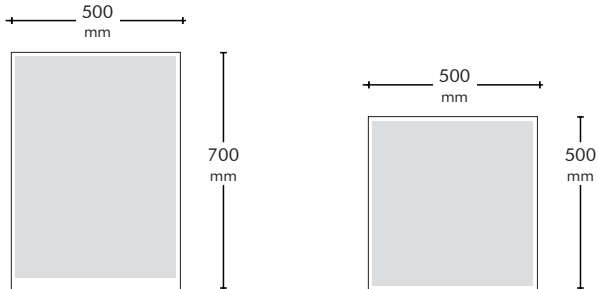

Decorated with three of the characteristic graphics of George Sowden, this set of three tins has multiple functions. They can be used to store small objects, jewellery, small toys... the options are unlimited. When empty, the tins can be nested within each other for easy storage.

PEPPER & SALT

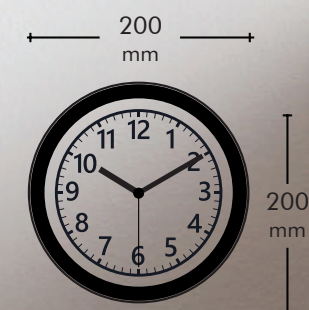

MATERIAL: Material: Stainless steel 304, PP
MILL: Alumina ceramic
CHARACTERISTICS: Can be used both for salt and pepper - Easy to adjust the coarseness of the grind

POSTER

MATERIAL: Digitally printed onto 120g Fedrigoni Materica matte paper. All graphics are designed by George Sowden, signed with a stamp.

CLOCK

MATERIAL: Glass; ABS; Aluminium
*battery not included
